DIRECTION C

ARCHIVE is a transmission that never stopped. One invariant re-ordered across time is the identity, built on a citable Nigerian principle: Uli practice holds the vocabulary fixed and makes the ordering the creative act. The strongest historical argument of the three, and the hardest to build accessibly.

THE PROPOSITION

- A LIVE INSTRUMENT
- FIXED VOCABULARY, VARIABLE ORDER
- THE TIME AXIS IS THE LAYOUT

RISK

- NOT BUILDABLE TO STANDARD
- HARDEST TO MAKE ACCESSIBLE
- LIVING SIGN SYSTEM AS INTERFACE

DIRECTION C · THE SIGNAL

A TRANSMISSION THAT NEVER STOPPED.

THE SIGNAL

The wordmark in true dot-screen states, across three era registers, on an axis ticked 1856 · 1958 · 1961 · 1968 · 1977 · 2026. Its best contributions — registered states as the identity mechanic, and a marker system for the disciplines — are absorbed into the recommended direction without its build and cultural risk.
